

- Python Programming with Data Structures and Algorithm and Object Oriented Programming Concepts.
- Deployed Restful web application using FASTAPI as the backend framework and MySQL as the relational database system.
- Skills: **Python, C++, Microsoft Power BI, MySQL, Lang Chain, Lang Graph, Data Structures and Algorithm, Object Oriented Programming.**

Cybersecurity simulation Deloitte**June 2025 – July 2025**

- Completed a job simulation involving reading web activity logs.
- Supported a client in a cyber security breach.
- Answered questions to identify suspicious user activity.

Cybersecurity Analyst Hackers10**April 2025 – May2025**

- Web application Pentesting.
- Network Pentesting.
- SOCIAL ENGINEERING & PHISHING SIMULATION.
- Malware Analysis, Reverse Engineering & Threat Hunting.
- Cloud Security Audits.

Security Analyst Intern The Red Users**MAY 2024 - Jun 2024**

- Python programming for Cyber Security.
 - Exploring wifi Security Exploring flipper zero in Cybersecurity.
 - Security Information and event management(SIEM).
 - Install, configure and manage security tools.
- Skills: **Python, MySQL, Burp suite.**

Software Developer Intern Friends Union Energizing Lives**SEP 2023 - NOV 2023**

- Basic Python Programing With AI.
 - Data Structures and Algorithm.
 - Design Restful web application using FASTAPI as the backend framework and MySQL as the relational database system.
- Skills: **Python, MySQL, Fast API, Docker, SQL Alchemy.**

PROJECTS**Mobile Application Vulnerability****JAN 2024**

- It is a software tool that scans android apk and performs Static Analysis for Vulnerability Assessment generates Report after each scan which includes information about threats that apk file can have. The is implemented on local host server mangoDB as database.
- Skills: **Python, MongoDB, MySQL, Lang Graph.**

AI Agent Using Lang Chain and Lang Graph**DEC 2024**

- Ai agent cable answering Question by using Natural Language Understanding.
- Skills: **Python with Lang Chain and Lang Graph, OpenAI API Key, SQL Alchemy.**

Build Fast API App with MySQL Database**FEB 2025**

- This project involves the development of a Restful web application using FASTAPI as the backend framework and MySQL as the relational database system.
- The application is designed to handle CRUD operations (Create, Read, Update, Delete) through a high-performance, asynchronous API.
- Skills:- **Python, Fast API , Uvicorn, My SQL, SQL Alchemy.**

Academics

- Qualification: **B.E in Computer Science and Engineering** from Visveswaraya Technological University In 2024 with Overall CGPA 7.8.
- Course Work: Operating Systems, Computer Programming, Database, Cybersecurity and Networks.
- Certifications: **Certified Ethical Hacker V13 From EC Council.**
